EDUCATION

- National Institute of Technology, Silchar** Assam, India
 - B.Tech. in Computer Science and Engineering - CGPA: 7.91* *Aug 2023 – Jun 2027*
 - Relevant Coursework:** OOPS, Operating Systems, Computer Networks, Database Management Systems
- Delhi Public School, Siliguri** Siliguri, West Bengal
 - Higher Secondary (HSC) - 89.6%* *Apr 2021 – Apr 2023*

PROJECTS

- Tech-Freak: Explore, Buy, Manage** *E-commerce Project*
 - [GitHub](#)
 - Engineered a decoupled full-stack e-commerce architecture using **React, Vite, Node.js, and MongoDB Atlas**, seamlessly configuring environment routing and CORS policies to connect disparate microservices.
 - Architected a real-time Machine Learning recommendation engine using **Python, FastAPI, Pandas, and Scikit-learn**, deploying collaborative filtering via Cosine Similarity to dynamically suggest products based on user interaction weights.
 - Developed robust Mongoose seeding scripts to inject complex, nested data schemas, and optimized local testing flows by implementing secure, terminal-based JWT token bypasses for user authentication workflows.
- SecureNet: Zero-Knowledge E2EE Chat** *Full-Stack Security Project*
 - [GitHub](#) | [Live Website](#)
 - Architected a real-time End-to-End Encrypted (E2EE) communication network using **React, Node.js**, and **WebSockets**, optimized to actively route messages for **1,000+ concurrent users**.
 - Implemented ephemeral cryptography via the native **Web Crypto API**, utilizing ECDH P-256 key pairs and **AES-256-GCM** shared secrets for strict, localized payload encryption.
 - Engineered a zero-knowledge, volatile in-memory routing switchboard that **persists zero data to disk** and instantly destroys session memory upon disconnect to guarantee absolute privacy.

SKILLS

- Languages:** C++, Python, JavaScript, Java, SQL.
- Web & Frameworks:** React, Node.js, FastAPI, Vite, WebSockets, REST APIs.
- Databases & ODM:** MongoDB Atlas, Mongoose, SQLite.
- Security & ML:** Web Crypto API, E2EE, JWT, AES-256-GCM, Scikit-learn, Pandas.
- Tools & Environment:** Git, Linux, tmux, Postman, Figma, Canva.

HONORS AND AWARDS

- Highest rating of **1664** and tagged **Expert** at [Codeforces](#).
- Achieved a rank of **125** in **ICPC Prelims 2025**.
- Achieved a rank of **29** in **ICPC Chennai Regionals 2025** and **176** in **ICPC Amritapuri Regionals 2025**.
- Achieved **3 digit** rank in **5 Codeforces Contest** with best rank of **552** in Codeforces round 1027.
- Highest rating of **1906** at [Codechef](#) and rated **4 star**.
- Solved over **1700** problems across multiple platforms - [Codolio](#).
- Solved more than **500** problems in [Leetcode](#) and tagged **Guardian**.
- Qualified for Round 2 of **Meta Hacker Cup 2024 and 2025**.
- Participated in national contests including ICPC and NITS HACKS.
- Qualified for Round 2 of Smart India Hackathon and Amazon Hack-on.

POSITIONS OF RESPONSIBILITY

- Coding Club, NIT Silchar** Onsite
 - Moderator* *Aug 2024 – Present*
 - Mentorship:** Led 15+ weekly workshops and coding sessions for 50+ juniors, improving their algorithmic problem-solving skills by an average of 30% as measured by contest performance.
 - Content Creation:** Created 10+ unique contest challenges and facilitated 8 post-contest discussion forums, engaging 100+ participants and fostering a 15% increase in community problem-solving collaboration.
- Computer Science Society, NIT Silchar** Onsite
 - Moderator* *Aug 2024 – Aug 2025*
 - Coordination:** Directed a 5-member problem-setting and testing team for Abacus, curating 15+ original, high-quality problems with balanced difficulty, resulting in a 95% positive feedback rate from participants.

CERTIFICATIONS

- Certificate of Excellence: TLE Eliminators:** Completed advanced problem-solving training.
- 100 Days 2025 Badge: Leetcode:** Awarded for consistent daily practice on coding challenges.
